

VOTED AMERICA'S MOST INNOVATIVE TRUCK MANUFACTURER

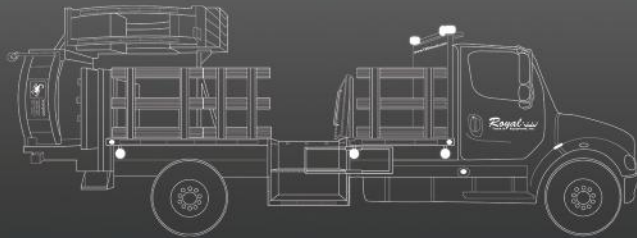

Royal

TRUCK & EQUIPMENT INC.

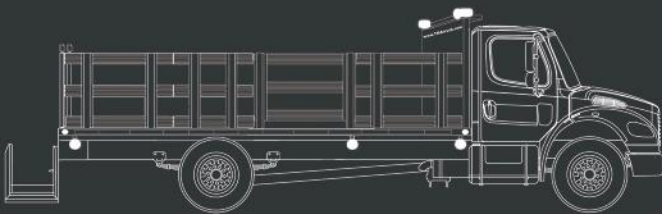

SWITCH BETWEEN THREE BUILDS IN A MATTER OF MINUTES

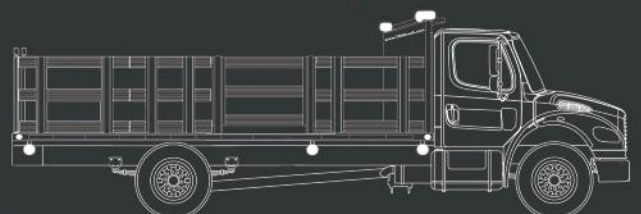

TMA TRUCK

A TMA truck is meant to protect the men and women working in front of it. Equipped with the industry's best attenuator, a TL-3 Scorpion, this truck will absorb heavy impacts.

CONE SAFETY TRUCK

Outfitted with a hydraulic man basket, the safety truck makes cone and barrel operations not only easy, but safe.

STAKE BODY TRUCK

Royal's stake body truck is ideal for holding not only your equipment, but also your fleet.

THREE ESSENTIAL BUILDS FOR THE PRICE OF ONE

HOW DOES IT WORK?

Royal uses a special connection system to transform one truck into three different trucks. Connect and disconnect truck components easily. The SwiftConnect™ system is built from steel, providing tremendous durability while delivering maximum flexibility for your fleet.

SIDE VIEW
OF FAST-TRAK SWIFTCONECT™ SYSTEM

IT'S AS EASY AS 1 - 2 - 3

IN AS LITTLE AS FIVE MINUTES, THE FAST-TRAK SWIFTCONECT™
ALLOWS THE SCORPION OR MAN BASKET TO ATTATCH EASILY

STEP ONE

Back up the truck
to the SwiftConnect™
& align mounting hooks
over connection bars.

STEP TWO

Lower into place,
plug in cords, and
insert lock pins.

STEP THREE

Ready to drive away
in approx. 5 minutes
safely and securely.

“ We use our 3-in-1 truck everyday. Since our work zone is running 24 hours, we need different trucks at different times. This truck does it all. Perfect design. ”
