

VOTED ONE OF AMERICA'S MOST INNOVATIVE TRUCK MANUFACTURERS

ROYAL'S 2ND GENERATION RADAR BOARD

**3'X5' FULL MATRIX
MESSAGE SYSTEM**
(36x60 inches)

SLOW DOWN TRAFFIC IN THE WORK ZONE

- ✓ 36x60 Full Matrix CMS with Radar Vehicle detection and GPS Speed Correction
- ✓ Built in data fields to display the speed limit and corrected vehicle speed accounting for the truck speed
- ✓ Programmable messages and graphics. Up to 9 internal or custom programmed frames can be selected for view in a repeating sequence using TraffiCalm's CMS software
- ✓ Can measure speeds up to 140MPH in ½ MPH increments.
- ✓ Sign configured to transmit the corrected speed to another device and overlaid on DVR recordings
- ✓ Bluetooth connectivity for message selection, programming, and diagnostics
- ✓ Durable Aluminum frame and polycarbonate window. Display modules are encapsulated in chemical restraint material to enhance vibration and shock resistance
- ✓ The sign can receive firmware code updates through the Bluetooth connection.
